

## PATHways

### Viewing Scanned Documents

PATHways now provides the ability to view the original requisition and other accompanying documents provided with the order. The link to “View Supporting Documents” is located at the bottom of the Encounter page in the “Ordered Tests” section.

**PATHways**

Worklist | Orders | Reports | Tools | Settings | Help

**Test, Accession** Male - Age 30 years  
 DOB: 08/09/92  
 Medical Record #: 7657MRN  
 Primary Patient ID:

**Specimen type:** Adenoids Bone Marrow

▶ **View Reports** (0 reports)

▶ **View Patient History** (0 reports)

▶ **Resulting** (0 work items) **Add a Case** **Add Services** (0 request)

▲ **Ordered Tests** (1 test)

Accession 5512279 In Progress **View Supporting Documents** Client Specimen ID: S1

Qty	Test	Specimen ID	Specimen Site	Date Ordered
1	Cancer Cytogenetics - Bone Marrow	633113	Adenoids	6/7/2022

You may want to configure your Resulting Settings to that the Ordered Tests section is expanded by default (un-check “Ordered Tests”):

Account Settings | User Settings | Report Settings | **Resulting Settings**

**General Settings**

Customize settings that apply to all products

Automatically show the Shipping Manifest upon converting to Global

Automatically show the Flow Population Tables

Automatically show the Spell Checker upon signing

By default, collapse the following information on the resulting screen: \*

Specimens  Reports  Patient History
